Dear J. Faritha Banu,

I am writing to request if you would be able to review manuscript # 4641-JCS, entitled "Application of Platform Models in Model Driven Engineering of Embedded Software", which has been submitted for consideration in Journal of Computer Science. The manuscript's abstract is provided below.

Abstract: This paper presents two UML 2.0 profiles for designing embedded software based on Real-Time Operating Systems (RTOS). The first profile, named Application Modeling Profile (AMP), defines the necessary elements for the application modeling. The second one, named swxRTOS, defines a set of stereotypes to describe platform models and the mapping between application and platform. These profiles are used for the development of Application and Platform separately from the model transformations in the context of the Model Driven Engineering (MDE) approach.

MANUSCRIPT DETAILS

ARTICLE TITLE: "Effect of aluminum to alumina particle size ratio on the microstructural aspects of LTHA aluminide coatings by Pack Cementation"

AUTHORS: Kahkhaei.Javan, Meysam; Azizi.Moghaddam, Adele; Farvizi, Mohammad; Abbasian, Ahmad Reza; Shirvani, Kourosh

ABSTRACT: Herein, the effects of the particle size ratio of aluminum to alumina powders on the microstructural aspects of the diffusion aluminide coatings were systematically studied. For this purpose, step one of low temperature-high activity (LTHA) pack cementation method was exploited. The aluminum powders Ala, Alb and Alc with a mean particle size of 250, 20 and 3 micrometers, and alumina powder with a mean particle size of 44 micrometers were used, respectively. According to the results of SEM-EDS analysis, the average thickness of the coatings created by Ala, Alb and Alc powders in the pack aluminizing process was measured to be 92.4, 89.6, 56.4 micrometers, respectively. The linear atomic distribution of Al, Ni, Cr and Ti elements was obtained to compare the chemical composition of the coatings. It was found that the coatings produced by Alb and Alc powders had the highest and lowest Al concentrations in their chemical composition, respectively. The optimized aluminum to the alumina ratio in Alb can lead to enhancing gas state diffusion due to inhibiting the local melting and sintering of Al particles. Also, due to solid-state diffusion coupling mechanism in the obtained coating from Ala powder, despite the lower aluminum concentration, this coating is slightly thicker than the obtained coating from Alb powder. So, the particle size ratio of the aluminum to the alumina powders is a key parameter in pack aluminizing due to its effects on the distribution of elements and microstructure coatings.

Sir,

Sub: Appointment of Flying Squad Member – Surprise Inspection to Exam Centres of Zone-2 – Anna University Odd Semester Practical Examinations – Nov – Dec -2019 – Reg.

I am pleased to appoint you as the Member of the Flying Squad for the period **30/10/2019 to 04/11/2019** to carryout surprise check at the Examination Halls of the colleges coming under Zone-2. During the inspection you are requested to check whether the examination is conducted as per the University rules and regulations.

The squad team may try to visit as many colleges as possible per day. The team may also plan to visit every college (from their list) by rotation before the start of the Examination to ensure the commencement of the examination on time in the presence of the Anna University Representative/Chief Superintendent of Examinations.

If a student is involved in any malpractice, the matter has to be immediately reported to the Chief Superintendent of the Examination through the Hall Superintendent. The above incidence has to be recorded by the Hall Superintendent and the Chief Superintendent and an undertaking has to be obtained from the student narrating the malpractice along with the material used for malpractice etc.

After getting the undertaking, the student may be permitted to write the Examination. The Chief Superintendent may be requested to pack this answer script in a separate cover and send it to the Zonal office with a note.

The squad member is requested to submit the details of the inspection in the prescribed format (one report for each date for each team) at the end of the spell, with a date and session - wise summary of colleges visited.

The vehicle for travel will be arranged by the Zonal office.

Your co-operation is earnestly solicited to carryout the above task.

Date: 25.08.2020

To,

Dr V Kannan

Sub: Appointment as Centre Superintendent for NEET (UG)-2020 to be held on 13-09-2020(Sunday)-reg.

Dear,

1. In accordance with the Regulations framed under Section 14 of the National Medical Commission Act, 2019, a common and uniform National Eligibility-cum-Entrance Test (NEET) is to be held for admission to the undergraduate medical courses in all medical institutions including those governed under any other law. Thus, the admission to the MBBS course in AIIMS, New Delhi, JIPMER and all AIIMS like Institutions is also to be made through NEET. **NEET (UG)-2020** will be conducted by National Testing Agency (NTA) on **Sunday, 13 September, 2020 from 2:00 pm-5:00 pm** at 3846 Centres in 155 cities across the country.
2. I am pleased to inform that you have been appointed as a **Centre Superintendent (CS)** by the Director General, National Testing Agency (NTA) for the conduct of NEET (UG), 2020 as per the following details-

CentreID	CENTNO	Centre details	No. of candidates allotted
NTA-EC-C-00268	4104003	JEPPIAAR INSTITUTE OF TECHNOLOGY, KUNNAM SUNGUVARCHATRAM SRIPERUMBUDUR, Kunnam, Sunguvarchatram, KANCHIPURAM, Tamil Nadu, 631604	685

No amount of money can compensate for the efforts you and your team would put in towards conducting this examination, especially during COVID-19 pandemic days. However, for conducting NEET (UG) -2020 your Centre would be paid as per the norms as given in the guidelines, and 90% of the admissible amount, would be sent to you once you verify the bank details submitted online through Exam Centre Portal (www.nta.ac.in/examcentre/login)

3. It is pertinent to mention here that Centre Superintendents (CS) are the Head/Senior faculty of the Institution/ Examination Centre. The CS needs to ensure that NEET (UG) -2020 is conducted smoothly and fairly with support of **Observers, and other Staff** at the Centre. Detailed Guidelines in this regard have been shared through dashboard available at the Exam Centre Portal.
4. CS is also primarily responsible for the implementation of **SOP and Advisory regarding COVID-19 - related social distancing and safety guidelines**, discussed during briefing and shared on dashboard as well as along with the Centre Kit. For maintenance of proper social distancing outside the Exam Centre campus area, before and after the exam, please also get in touch with the local police authorities, in case you need police support. Letters in this regard have already been written to the concerned DMs/ SPs, a copy of which is available on your dashboard for your reference and use.
5. **You are requested to also complete the following preexamination preparedness exercise-**
 - i. Update/verify/validate your credentials, including bank details on the Exam Centre Dashboard. For this, you will need to log in www.nta.ac.in/examcentre/login and with your Centre ID and Password shared through SMS on your registered mobile. In case, you face any technical difficulty, please email at neet-centre@nta.ac.in.

PRINCIPAL

- ii. The **“No Relation Certificate”** has to be filled in by all staff associated with the exam, in the enclosed format Annexure-1, individually by all staff concerned. The scanned documents may be mailed at neet-centre@nta.ac.in. There is no need to send these documents by post.
 - iii. Read Guidelines and COVID-19 related norms carefully.
 - iv. Download **NTA logistics Powerapp available at Google Play Store** specially meant for tracking Examination material as per the instruction given in the manual available on your dashboard.
6. Centre Superintendents (CS) are required to attend the virtual meeting/s convened by the City Coordinator to understand the examination practices, and also CC briefing one day before the examination.
 7. Centre Superintendent would also convene a meeting in second half a day before examination, with Invigilators and all other officials of the school/organization involved before, during and on the day of the conduct of NEET (UG)-2020. This is in order to ensure that instructions are implemented appropriately and strictly on the day of examination by Invigilators and Support Staff.
 8. The NTA has appointed an agency to provide frisking/ security services at each centre. The agency is responsible for-
 - a. Supply of thermoguns to be used for thermal scanning,
 - b. Providing frisking personnel,
 - c. Providing one more manpower to assist the Centre staff in crowd management outside the campus,
 - d. Putting markings on the floor outside, at adequate (approx 2 m) distance, and
 - e. Providing ropes and barricades outside to keep candidates in proper social distance while they are waiting for the entry.

The Agency has been given your contact details and they will get in touch with you.

9. NEET (UG)-2020 is a high stakes Entrance Examination of national importance. Since 2015, all the organizations holding the examinations are facing a tough time because of the highly organized methods for use of unfair means and practices in the examination for personal gain. Generally, modern communication devices and impersonators are used in unfair means activities. Therefore, it is essential to be extra vigilant during the conduct of NEET (UG)-2020.
10. This year is unprecedented due to challenges faced by the COVID -19 pandemic. NTA has prepared comprehensive advisory (as mentioned in para 4 above) in consultation with the renowned experts in medical/examination field. A serious implementation of the same would ensure that we are able to conduct the NEET (UG) - 2020 in a safe, healthy & secure way without compromising anyone’s health as well as examination’s integrity.
11. You are strongly advised to go through the Centre Superintendents Guidelines with special emphasis on the Chapter – 3 available in the booklet of **“Guidelines for the conduct of National Eligibility cum Entrance Test – UG 2020”**, so as to make yourself completely ready. You are also referred to the videos available at Exam Centre Dashboard to better understand the entire process.
12. Management of confidential material is one of the very sensitive and key responsibilities of CS. They are expected to handle the material carefully once they receive it from the Custodian. The CSs need to follow all instructions regarding packing of documents after the conduct of the examination and seal them as per the packing plan. The CS is also required to hand over these packed and sealed materials to the Collection Centre of the respective City Coordinator on the same day of the examination, viz. 13 September 2020.
13. Centre material has been dispatched separately to you through your City Coordinator. You are requested to verify the quantity received, and confirm the receipt of adequate quantity on the Powerapp mentioned in para 5 (iv) above.

14. NTA's CS Helpdesk is also available for your assistance at the following numbers:
