BUREAU OF ENERGY EFFICIENCY

Examination Registration No. : EA-1567

AEA-0133

Accreditation Registration No. :

Certificate of Accreditation

This is to certify that Mr./Ms. J. Nagesh Kumar having its trade/registered office at Chenna, has been given accreditation as accredited energy auditor. The certificate shall be effective from 26th day of November 2013.

The certificate is subject to the provisions of the Bureau of Energy Efficiency (Qualifications for Accredited Energy Auditors and Maintenance of their List) Regulations, 2010.

This certificate shall be valid until it is cancelled under regulation 9 of the Bureau of Energy Efficiency (Qualifications for Accredited Energy Auditors and Maintenance of their List) Regulations, 2010.

On cancellation, the certificate of accreditation shall be surrendered to the Bureau within fifteen days from the date of receipt of order of cancellation.

Your name has been entered at AEA No. 0133, in the register of list of accredited energy auditors. Your name shall be liable to be struck out on the grounds specified in regulation 8 of the Bureau of Energy Efficiency (Qualifications for Accredited Energy Auditors and Maintenance of their List) Regulations, 2010.

Given under the seal of the Bureau of Energy Efficiency, Ministry of Power, this 26th day of May 2014.

Chapter 1

Introduction

Jeppiaar Remibai Educational Trust, established Jeppiaar Institute of Technology in 2011, to provide futuristic technical education with the perspective of innovative social and industrial application for the betterment of humanity. Jeppiaar Educational Trust that began to promote technical education in 1987, with more than 25 years of experience in administrating several educational institutions endorses the establishment under the leadership of DR. N. Marie Wilson, the Director of the institution. Since the launch, Jeppiaar Institute of Technology propels relentlessly towards fulfilling its vision. Jeppiaar Institute of Technology is the first institution in India to establish a laboratory with the incorporation of 'Innovative Cloud Computing Technology'. All the class rooms are CAI (computer Aided Instruction) enabled with wall mount Multimedia LCD Projectors, to make full use of the modern teaching aids. Presently, the college offers five popular professional under-graduate engineering programs namely B.E. Computer Science and Engineering, B.E. Electronics and Communication Engineering, B.E. Electrical and Electronics Engineering, B.Tech Information Technology and B.E. Mechanical Engineering.

The Department of computer science in the campus makes the most of the service rendered by the Computer Society of India (CSI), to share their knowledge and exchange their ideas in the ever progressive world of technology. ASME, SAE and the Big-Data Research Center of the college support the career needs of the students. The IEEE students' chapter and IEEE Women in engineering in the campus are vibrant in connecting to breakthrough technical information and put them in an open platform for

2

JEPPIAAR INSTITUTE OF TECHNOLOGY , SRIPERUMBUDUR - GREEN AUDITING

regular updates. Students' passion in robotics is commendable. National Cadet Corps (NCC), National Social Service (NSS) and Youth Red Cross (YRC) are also offered for the holistic development of the students.

In the field of sports and games also the college ranks among the top ten in the state and the college organizes Jeppiaar Trophy, a national level basketball tournament every year in which all the potential basketball teams in the country take part. The standard of the tournament is obvious and it is recognized by Doordarshan with its live telecast.

Along with well-equipped laboratories and workshops, the institution supports and provides opportunities for prospective students and staff to be associated with major industries to gain experience in a particular field and to equip themselves as professional engineers. While aspiring to build sustainable partnerships with industries in India and making the students "industry ready", our institution cherishes its association with Infosys and Wipro, Technologies to be a vital advantage.

Along with the establishment of the conducive atmosphere for application oriented professional technical education, the institution rejuvenates the spirit and morale of the students and teachers, by offering additional awards and scholarships every year to add fervor in all the activities regularly.

A rich heritage of academic excellence is given by the college with its strong infrastructure, unrelenting endeavours in imparting technical education to budding engineers. The main aspiration of our institute is to prepare prospective students with essential skills, knowledge, confidence and expertise in state-of-the-art technology in order to perform their work professionally and outstand with higher dynamism.

1.1 Vision and Mission Statements of the College

Vision:

Jeppiaar Institute of Technology aspires to provide technical education in futuristic technologies with the perspective of innovative, industrial, and social applications for the betterment of humanity.

Mission

- To produce competent and disciplined high-quality professionals with the practical skills necessary to excel as innovative professionals and entrepreneurs for the benefit of society.
- To improve the quality of education through excellence in teaching and learning, research, leadership, and by promoting the principles of scientific analysis, and creative thinking.
- To provide excellent infrastructure, serene, and stimulating environment that is most conducive to learning.
- To strive for productive partnership between the Industry and the Institute for research and development in the emerging fields and creating opportunities for employability.
- To serve the global community by instilling ethics, values, and life skills among the students needed to enrich their lives.

1.2 Quality Policy of the College

To pursue global standards of excellence in all our endeavors in teaching, infrastructure , resources , research and continuing education through continual improvement process and effectiveness of the Quality Management System.

Chapter 2

Pre-Audit Stage

A pre-audit meeting is an important prerequisite for the green audit because it is the first opportunity to meet the auditee and deal with any concerns. This was held at Jeppiaar Institute of Technology, Sriperumbudur on February 15th 2021. It was an opportunity to gather documentation that the audit team can study before arriving on the site. The audit protocol and audit plan was handed over at this meeting and discussed in advance of the audit itself. The meeting provided an opportunity to reinforce the scope and objectives of the audit and discussions were held on the practicalities associated with the audit.

2.1 Management Commitment

The Management of the college has shown great commitment towards green auditing during the pre-audit meeting. They were ready to encourage all green activities. It is decided to promote all activities that are environment friendly such as awareness programs on the environment, campus farming, planting more trees on the campus etc., after the green auditing. The management of the college will formulate policies based on the green auditing report. The management commitment is an indicator which addresses institutional commitment, governance, and investment policy. College administration is vital to the process of realizing campus sustainability, and college policy is an essential instrument for any substantial change in the campus environment.

2.2 Scope and goals of Green Auditing

A clean and healthy environment aids effective learning and provides a conductive learning environment. There are various efforts around the world to address

6

environmental education issues. Green auditing is one among them for educational institutions. Once a baseline is established, the data can serve as a point of departure for further action in campus greening. Existing data will allow the college to compare its programs and operations with those of peer institutions, identify areas in need of improvement, and prioritize the implementation of future projects. This data will also provide a basis for calculating the economic benefits of resource conservation projects, by establishing the current rates of resource use and their associated costs. This audit initiative focused initially on educating colleges and universities through workshops, guidebooks, fact sheets and ensuring compliance through inspections and self audits.

A very simple indigenized system has been devised to monitor the environmental performance of Jeppiaar Institute of Technology, Sriperumbudur. It comes with a series of questions to be answered on a regular basis. This innovative scheme is user-friendly and totally voluntary. The aim of this is to help the institution to set environmental examples for the community, and to educate the young learners.

2 .3 Benefits of the Green Auditing

- ✓ More efficient resource management
- ✓ To create a green campus
- ✓ To enable waste management through reduction of waste generation, solid-waste and water recycling
- ✓ To create plastic free campus and evolve health consciousness among the stakeholders
- ✓ To provide a basis for improved sustainability
- ✓ Impart environmental education through systematic environmental management approach and Improving environmental standards
- ✓ Benchmarking for environmental protection initiatives
- ✓ Financial savings through a reduction in resource use
- ✓ Curriculum enrichment through practical experience
- ✓ Development of ownership, personal and social responsibility for the College

and its environment

- ✓ Enhancement of college profile
- ✓ Developing an environmental ethic and value systems in young people

2.4 Target Areas of Green Auditing

➤ Auditing for Water Management

This indicator addresses water consumption, water sources, irrigation, storm water, appliances and fixtures. Aquifer depletion and water contamination are taking place at unprecedented rates. It is therefore essential that any environmentally responsible institution should examine its water use practices.

➤ Auditing for Energy Management

This indicator addresses energy consumption, energy sources, energy monitoring, lighting, appliances, and vehicles. Energy use is clearly an important aspect of campus sustainability and thus requires no explanation for its inclusion in the assessment.

➤ Auditing for Waste Management

This indicator addresses waste production and disposal, plastic waste, paper waste, food waste, and recycling. Municipal solid waste has a number of adverse environmental impacts, most of which are well known and not in need of elaboration. Solid waste can be divided into two categories: general waste and hazardous waste. General waste includes what is usually thrown away in homes and schools such as paper, plastics tins and glass bottles. Hazardous waste is waste that is likely to be a threat to one's health or the environment like cleaning chemicals and petrol.

Unscientific landfills may contain harmful contaminants that leach into soil and water supplies, and produce greenhouse gases contributing to global climate change.

8

Furthermore, solid waste often includes wasted material resources that could otherwise be channeled into better service through recycling, repair, and reuse. Thus the minimization of solid waste is essential for a sustainable college.

➤ **Hazardous materials**

This indicator addresses hazardous wastes of laboratories, medical waste, art supplies, and chemicals (paints, cleaning materials etc.) used in campus maintenance. Hazardous materials represent significant risks to human health and ecological integrity. Hazardous wastes are also leached out through the e-waste generated in the campus. They often persist in the environment leaving a legacy of land and water contamination for generations. They also accumulate in the tissues of organisms and become concentrated within food chains, leading to cancer, endocrine disruption, birth defects, and other tragedies. The minimization, safe handling, and ultimate elimination of these materials are essential to the long-term health of the planet.

➤ **Auditing for Green Campus Management**

All plant and animal species - including humans - are linked together in a complex web of life; we depend upon biodiversity for our survival. Biodiversity is the key to healthy ecosystems and ultimately a healthy planet. It keeps the air and water clean, regulates our climate and provides us food, shelter, clothing, medicine and other useful products. Each part within this complex web diminishes a little when one part weakens or disappears.

➤ **Auditing for carbon footprint**

How we get around and commute to and from college each day has an impact on the environment through the emission of greenhouse gases into the atmosphere by the burning of fossil fuels (such as petrol or diesel). The most common greenhouse gases are carbon dioxide, water vapour, methane, nitrous oxide and ozone. Of all the greenhouse gases, carbon dioxide is the most prominent greenhouse gas, comprising 402 ppm of the Earth's atmosphere. The release of carbon dioxide gas into the Earth's atmosphere through human activities is commonly known as carbon

9

emissions.

An important aspect of doing an audit is to be able to measure our impact so that we can determine better ways to manage the impact. In addition to the water, waste, energy and biodiversity audits we can also determine what our carbon footprint is, based on the amount of carbon emissions created. One aspect is to consider the distance and method traveled between your home and college every day.

The above target areas particular to the college was evaluated through a questionnaire circulated to the students for data collection. Five categories of questionnaires were distributed. The formats of these are given below.

PRINCIPAL

**Survey forms used for the auditing @
Jeppiaar Institute of Technology, Sriperumbudur
Green Auditing Auditing for Water Management**

1. List uses of water in your college.
2. What are the sources of water in your college?
3. How many wells are there in your college?
4. No. of motors used for pumping water from each well?
5. What is the total horse power of each motor?
6. What is the depth of each well?
7. What is the present depth of water in each well?
8. How does your college store water?
9. Quantity of water stored in your overhead water tank? (in litres)
10. Quantity of water pumped every day? (in liters)
11. If there is water wastage, specify why.
12. How can the wastage be prevented / stopped?
13. Locate the point of entry of water and point of exit of waste water in your College.
14. Where does waste water come from?
15. Where does the waste water go?
16. What are the uses of waste water in your college?
17. What happens to the water used in your labs? Whether it is mixing with groundwater?
18. Is there any treatment for the lab water?
19. Are your labs are practicing green chemistry methods?
20. Write down four ways that could reduce the amount of water used in your college.
21. Record water use from the college water meter for six months.
22. Bimonthly water charges paid to water connections if any
23. No. of water coolers. Amount of water used per day? (in litres)
24. No. of water taps. Amount of water used per day?
25. No. of bath rooms in staff rooms, common, hostels. Amount of water used per day?
26. No. of toilet, urinals. Amount of water used per day?
27. No. of water taps in the canteen. Amount of water used per day?
28. Amount of water used per day for garden use.
29. No. of water taps in laboratories. Amount of water used per day in each lab?
30. Total use of water in each hostel?
31. At the end of the period, compile a table to show how many litres of water have been used in the college for each purpose
32. Is college harvest rain water?
33. If yes, how many rain water harvesting units are there? (Approx. amount)
34. How many of the taps are leaky? Amount of water lost per day?
35. Are there signs reminding people to turn off the water? _____ Yes _____ No day? (Approx)
36. Is drip irrigation used to water plants outside?

d.meh

JEPPIAAR INSTITUTE OF TECHNOLOGY , SRIPERUMBUDUR - GREEN AUDITING

37. How often is the garden watered?
 38. Amount of water used to watering the ground?
 39. Amount of water used for bus cleaning? (liters per day)
 40. Amount of water for other uses? (items not mentioned above)
 41. Area of the college land without tree/building canopy.
 42. Is there any water management plan for the college?
 43. Are there any water saving techniques followed in your college? What are they?
 44. Please share Some IDEA for how your college could save more water.

**Green auditing @
Jeppiaar Institute of Technology, Sriperumbudur
Auditing for Energy Management**

1. List ways that you use energy in your college. (Electricity, electric stove, kettle, microwave, LPG, firewood, Petrol, diesel and others).
2. Electricity bill amount for last one year
3. Amount paid for LPG cylinders for last one year
4. Weight of firewood used per month and amount of money spent? Also mention the amount spent for petrol/diesel/ others for generators?
5. Are there any energy saving methods employed in your college? If yes, please specify. If no, suggest some.
6. How much money does your college spend on energy such as electricity, gas, firewood, etc. in a month. (Record monthly for the year 2014).
7. How many CFL bulbs has your college installed? Mention use (Hours used/day for how many days in a month)
8. Energy used by each bulb per month? (for example- 60 watt bulb x 4hours x number of bulbs = kWh).
9. How many LED bulbs has your college installed? Mention use (Hours used/day for how many days in a month)
10. Energy used by each bulb per month? (kwh).
11. How many incandescent (tungsten) bulbs has your college installed?
Mention use (Hours used/day for how many days in a month)
12. Energy used by each bulb per month? (kwh).
13. How many fan has your college installed? Mention use (Hours used/day for how many days in a month)
14. Energy used by each fan per month? (kwh)
15. How many air conditioner has your college installed? Mention use (Hours used/day for how many days in a month)
16. Energy used by each air conditioner per month? (kwh).
17. How many electrical equipment including weighting balance has your college installed? Mention use (Hours used/day for how many days in a month)
18. Energy used by each electrical equipment per month? (kwh).
19. How many computer has your college installed? Mention use (Hours used/day for how many days in a month)
20. Energy used by each computer per month? (kwh)
21. How many photocopier has your college installed? Mention use (Hours used/day for how many days in a month).
22. Energy used by each cooling apparatus has your college installed? Mention use (Hours used/day for how many days in a month)
23. Energy used by each cooling apparatus per month? (kwh) Mention use (Hours used/day for how many days in a month)
24. Energy used by each photocopier per month? (kwh) Mention use (Hours used/day for how many days in a month)
25. How many inverters your college installed? Mention use (Hours used/day for how

d.m.s

- many days in a month)Energy used by each inverter per month? (kwh)
- 27.How many electrical equipment used in different labs of your college ? Mention use (Hours used/day for how many days in a month)
- 28.Energy used by each equipment per month? (kwh)
- 29.How many heaters used in the canteen of your college ? Mention use(Hours used/day for how many days in a month)Energy used by each heater permonth? (kwh)
- 30.Number of street lights in your college? Energy used by each street light per month? (kwh)
- 31.Number of TVs in your college and hostels? Energy used by each TV permonth? (kwh)
- 32.Any other item that uses energy (Please write the energy used per month)
Mention use (Hours used/day for how many days in a month)
- 33.Are there any alternative energy sources/nonconventional energy sources employed / installed in your college? (photovoltaic cells for solar energy, windmill, energy efficient stoves, etc.,) Specify.
- 34.Do you run "switch off" drills at college?
- 35.Are your computers and other equipment put on power-saving mode?
- 36.Does your machinery (TV, AC, Computer, weighing balance, printers, etc.) run on stand by modes most of the time? If yes, how many hours?
- 37.What are the energy conservation methods adapted by your college?
- 38.How many boards displayed for saving energy awareness?
- 39.How much ash collected after burning fire wood per day in the canteen?
- 40.Write a note on the methods/practices/adaptations by which you canreduce the energy use in your college campus in future.

Auditing for Waste Management**

1. What is the total strength of students, teachers and Non teaching staff in your College?

	No. of Students	No. of Teachers	No. Non teaching staff
Gents	Ladies	Total	

2. Which of the following are available in your College? Give area occupied and number

Garden area	Garbage dump (number)
Play ground area	Laboratory
Kitchen	Canteen
Toilets (number)	Car/scooter shed area
Number of class rooms	Office rooms Others (specify)

3. Which of the following are found near your college?

Mark the level of disturbance it creates for the college in a scale of 1 to 9.

- Municipal dump yard
- Garbage heap
- Public convenience
- Sewer line
- Stagnant water
- Open drainage
- Industry – (Mention the type)
- Bus / Railway station
- Market / Shopping complex / Public halls

4. Details of WASTE generated

- 4.1 Does your college generate any waste?

If so, what are they? How much quantity? Number or weight E-waste

Hazardous waste (toxic) Solid waste

Dry leaves Canteen waste Liquid waste Glass

Unused equipment Medical waste if any Napkins

Others (Specify)

- 4.2 Is there any waste treatment system in the college?

- 4.3 Is there any treatment for toilet/urinal/sanitary napkin waste?

4.4 What is the approximate amount of waste generated per day? (in Kilograms)(approx.)

Office

Approx	Bio degradable	Non-Bio degradable	Hazardous	Others
< 1 kg.				
2 - 10 kg.				
> 10 kg.				

Laboratories

Approx	Bio degradable	Non-Bio degradable	Hazardous	Others
< 1 kg.				
2 - 10 kg.				
> 10 kg.				

Canteen/kitchen

Approx	Bio degradable	Non-Bio degradable	Hazardous	Others
< 1 kg.				
2 - 10 kg.				
> 10 kg.				

- 5 Is there a problem with the waste produced ?
- 6 Whether waste is polluting ground/surface water? How?
- 7 Whether waste is polluting the air of the college? How?
- 8 How is the waste generated in the college managed? Methods
 - 8.1 Composting
 - 8.2 Recycling
 - 8.3 Reusing
 - 8.4 Others (specify)
- 9 How many separate boxes do you think you would need to put into a classroom to start a waste segregation and recycling campaign?
What would each be used for? (Develop a colour code with reasons)
- 10 Do you use recycled paper in College?
- 11 Is there any waste wealth programme practiced in the college?
- 12 How would you spread the message of recycling to others in the community?
Have you taken any initiatives? If yes, please specify.
- 13 Can you achieve zero garbage in your college? (Reduce ,Recycle, Reuse, Refuse) If yes, how?

10. Number of parent-teacher meetings in a year? Parent turn out (approx.)
11. Number of visitors with vehicles per day?
12. Number of generators used every day (hours). Give the amount of fuel used per day.
13. Number of LPG cylinders used in the canteen (Give the amount of fuel used per day and amount spent).
14. Quantity of kerosene used in the canteen/labs (Give the amount of fuel used per day and amount spent).
15. Amount of taxi/auto charges paid and the amount of fuel used per month for the transportation of vegetables and other materials to canteen.
16. Amount of taxi/auto charges paid per month for the transportation of office goods to the college.
17. Average amount of taxi/auto charges paid per month by the stakeholders of the college.
18. Use of any other fossil fuels in the college (Give the amount of fuel used per day and amount spent).
19. Suggest the methods to reduce the amount of use of fuel by the stakeholders/students/teachers/non teaching staff of the college.

Chapter 3 Audit Stage

Green auditing was done by Vector Solutions involving different student groups & teaching and non-teaching staff. The green audit began with the teams walking through all the different facilities at the college, determining the different types of appliances and utilities (lights, taps, toilets, fridges, etc.) as well as measuring the usage per item (Watts indicated on the appliance or measuring water from a tap) and identifying the relevant consumption patterns (such as how often an appliance is used) and the impact that they have. The staff and learners were interviewed to get details around usage, frequency or general characteristics of certain appliances. Data collection was done in the sectors such as Energy, Waste, Greening, Carbon footprint and Water uses. College records and documents were verified several times to clarify the data received through survey and discussions. Student groups involved

Students from the departments took part in the data collection of green auditing.

3.1 Comments on site inspection

Site inspection was done along with students and staff. It was quite interesting and fascinating. It was an environmental awareness program for the students who participated in the green auditing. The experience of green auditing was a first time experience for most of the students. They shared their expectations about a green campus and gave suggestions for the audit recommendations.

3.2 Review of documents and records

Documents such as admission registers, registers of electricity and water charge remittance, furniture register, laboratory equipment registers, purchase register, audited statements, and office registers were examined and data was collected. College calendars, college magazines, annual report of the college and NAAC self-assessment reports, UGC report etc. were also verified as part of data collection.

3.3 Review of policies

Discussions were made with the college management regarding their policies on environmental management. Future plans of the college were also discussed.

Interviews

In order to collect information for green auditing different audit groups interviewed office staff, Principal, Teaching and non-teaching staff, students, parents and other stakeholders of the college. Discussions were also made with the PTA office bearers to clarify doubts regarding certain points.

3.4 Site inspection

The college and its premises were visited and analyzed by the audit-teams several times to gather information. Campus trees were counted and identified, vegetable garden, play grounds, canteen, library, office rooms and parking grounds were also examined to collect data.

Chapter 4 Post Audit Stage

4.1 Key Findings and Observations

a) Water

- ❖ Number of Water treatment system in place - 1
- ❖ Water cooler with drinking water filtration is installed (19).
- ❖ Number of urinals and toilets – 40
- ❖ Number of waterless urinals - nil
- ❖ Number of bathrooms – 32
- ❖ Number of water taps – 120
- ❖ Number of Bore wells – 4
- ❖ Quantity of water pumped – 1,00,000-1,50,000 liters/day
- ❖ Water charges paid – Nil
- ❖ Water use in hostels – 70,000 liters/day

b) Energy

- ❖ Electricity charges Rs.3,50,000/month
- ❖ Cost of Gas cylinders used Rs. 1000/month
- ❖ Cost of generator fuel – Rs.70/Litre

- ❖ Number of CFL bulbs – 1051 (37.836 kwh)
- ❖ Number of LED bulbs – 442 (8.84 kwh)
- ❖ Number of incandescent bulbs – 265 (142.56 kwh)
- ❖ Fans – 1332 (106 kwh)
- ❖ ACs – 119 (238 kwh)
- ❖ Computers – 182 (6006kwh kwh)
- ❖ Cooling apparatus – 16 (232.32 kwh)
- ❖ Water pumps – 4
- ❖ Tubes – 120
- ❖ Photocopier – 7 (196.78 kwh)
- ❖ Printers – 60
- ❖ LCD projector – 15
- ❖ Television – 2 (0.8 kwh)
- ❖ Number of inverters – 2 (264 kwh)
- ❖ Number of water heaters – 14 (42 kwh)

c) Waste

- ❖ Total Stakeholders – 1200
- ❖ Class rooms – 38
- ❖ Other rooms – 28
- ❖ Number of hostel inmates - 500
- ❖ Number of Garbage dumps – 2
- ❖ Number of toilets - 80
- ❖ E-wastes- computers, electrical and electronic parts – Disposal by selling
- ❖ Plastic waste- disposal by selling
- ❖ Solid wastes – Damaged furniture, paper waste, paper plates, food wastes – to Municipal waste collection centers
- ❖ Chemical wastes – Laboratory waste
- ❖ Waste water – washing, urinals, bathrooms
- ❖ Glass waste – Broken glass wares from the labs
- ❖ Waste treatments – Seewage Treatment Plant

Quantity of waste generated:-

- ❖ Bio degradable – 3 kg/day (office)
- ❖ Non bio degradable – 8 kg/day (office)
- ❖ Bio degradable – 1 kg/day (labs)
- ❖ Non-bio-degradable – 1½ kg/day (labs)
- ❖ Hazardous waste – ½ kg/day

Canteen waste

- ❖ Biodegradable – 10kg/day
- ❖ Non-biodegradable – ½ kg/day

d) Green Campus

Campus tree cover – 436.76 Sq.M

Total number of campus plant species identified – 135

e) Carbon footprint

No. persons using cycles – 5

No. persons using cars – 17

No. persons uses two wheelers – 69

Persons using College transportations-1500

No. visitors per day - 15

Average distance travelled by stake holders – 15kms/day

Money spent for transportation by per person per day – Rs.40/-No of LPG cylinders used per month – 31 (Rs. 20000/Month)

Amount of fuel used per day for the operation of generators – 15 L(Rs. 2000/-)

Transportation charges for office goods – Rs. 1350/Month

Transportation charges for canteen materials – Rs. 1000/Month

4.2 Evaluation of findings

Water

Water audit at Jeppiaar Institute of Technology, Sriperumbudur					
1	2	3	4	5	6
Activity	Average litres of water used per activity (litres)	Number of times activity done each day	Total water used by a person each day (litres)	Number of people in the College using water	Total household water consumption per day
Wash hands and face	1.5 litres	3 times a day	1.5 litres x 3 times a day = 4.5	2600 people	4.5 litres x 300people = 13500 L
Bath	80 – 150	once	100	600	10000 L
Toilet flush	6-21	once	10	2000	20000 L
Drinking (cup)	0.25	twice	0.5	2500	25000 L
Washing dishes (hand)	18 single& 36 double basin	twice	25	2500	7500 L
Leaking/dripping tap (1 drop/ second /day)	30 to 60	continuous	50	-	2500 L
Food garden (m ² / day)	4	once		800	10000 L
Cooking (average meal for 5 people)	3				10000 L
Using the garden hose for an hour	1000	1	1000	Total	10000 L 150000 L

 Kanchipuram District - 631 604.

150000 liters of water is used per day by the college for its different uses. The main source of water is ground water. Recycled water from STP is partially used for flushing toilets in ladies hostel. This can be prevented and other sources of water loss may be identified. Drip irrigation should be practiced in gardens. STP treated water is used extensively in gardening.

Awareness programmes for the management of sustainable water use will be highly efficient in this college. Efficient water saving devices should be installed in all toilets. New toilets that are to be installed should have a dual flush system in place. Water management systems are to be introduced in the urinals. Some alternatives include spray taps, which can save about 80% of water and energy used for hand washing. Consider carrying out meter readings on a regular basis in order to monitor water usage.

Existing water management methods in the campus

- Rain water harvesting system (1)
- 5 awareness boards are displayed to save water

November	17003	6680	1547	36677
December	8325	3782	5664	33392

d.m.h

The total energy utilization of the college for different purposes is approximately 45,000 Units/month. Electricity charges per month is Rs.3,20,000/month. The College has already converted majority of the lamps to LED. Awareness programmes for the stakeholders to save energy may also increase sustainability in the utilization of various energy source.

Although staff are encouraged to switch off their own lights, monitors and other equipment, the House maintenance team should carry out a lock down of the building atthe end of every day and switch off any lights or equipment that have been left on. The College should improve its monitoring and reporting of energy usage and provide information to campus users. In order to do this the College must install meters for campus buildings.

Existing energy management methods in the campus

- ✓ 27 Awareness boards are displayed to save energy

Waste

Biodegradable waste = 30 kg/day Non-biodegradable waste = 3 kg/day

A composting pit is highly essential for the treatment of bio degradable waste generated from the canteen, office, vegetable garden and from the college campus cleaning operations. Different methods such as pit composting, vermi-composting, bacterial composting using bacterial consortium, may be used to treat the bio degradable waste. Hazardous waste generated from the college can be collected properly and may be handed over to the local self-governments treatment yards. Bottles, plastics, cans, broken glass wares, tins etc., may be recycled or sold out.

The College has missed few major recycling opportunities, with the exception of food waste from the dining halls. There should be proper sign boards displayed to tell students where to go for the disposal of other recyclables, plastics and hazardous wastes. There should be in place a policy for the handling and disposal of hazardous materials. The college should have in place plans for dealing with hazardous wastes in academic departments (art, chemistry, etc.) as well as the maintenance activities (paints, etc.).

Existing waste management methods in the campus

- ✓ Green (biodegradable), Yellow (plastic) and red (e-waste) coloured bins are placed in the class rooms for the waste segregation
- ✓ Re use of plastic carry bags
- ✓ Training in bag making from polyester, and cotton materials for nature clubmembers
- ✓ Waste segregation is done regularly

Green Campus

There are 134 different types of plants in the campus. Tree cover of the campus is 436.76 Sq.M. The tree populations of the campus comprise the following species.

There is enough space to set up a garden in front of the college. Large pots can be used for this purpose. A model grove will be ideal for the college. At least 60 different types of trees can be planted in the campus in the next one year period. An area may be demarcated for the establishment of a garden of medicinal plants, and vegetable garden.

Carbon Footprint

Petrol used by two wheelers/day 50 L (1 L for $15 \times 2 = 30$ km)

Petrol/diesel used by four wheelers 20 L (2 L for $15 \times 2 = 30$ km)

For persons travelling by common transportation = 42 L (3 L x 850 persons) Total fossil fuel use is 112 L / day Burning of fossil fuels is the main source and cause of carbon dioxide release to the atmosphere. Carbon dioxide release for the stakeholders to reach the college is very high.

It is contributing to the global warming and increasing the pace of climate change. More trees may be planted in the campus to make a source of sink for the carbon dioxide and for other green house gases.

Energy Conservation Measures

Energy Saving Measures Already Implemented

- Solar Power Geysers for Ladies Hostel
- VFD's for Pumps in STP
- Progressive use of LED Lamps Instead of Conventional Lamps
- Use of Natural Day Light extend Possible
- Extensive use of LCD Monitors
- Maintenance of High Power Factor using APFC Controllers

5 Provide VFD for Aeration Blower in STP

The Sewage Treatment Plant has 2 Blowers of 5.5 kW each .The Blower is in Continuous Operation for about 18 hours a Day . A DO Sensor could be Placed to Monitor the DO subsequently a VFD may be Provided to the Blower. The Speed of the Blower may be adjusted according to DO.

Power Drawn by Blower	5.5Kw
Power Savings with VFD	1.1kW
Annual Energy Savings	5940kWh
Annual Monetary Savings	Rs.41,580
Investment	Rs.20,000
Pay Back Period	6 Months

6 Provide Over Head Tank for Ladies Hostel for Recycled Water

The Treated water from STP is Partly used for Flushing in Ladies Hostel , This is done by a Pressure Pump with VFD , The Pump is in continuous operation even there are no uses , It is Suggested to provided an Over Head Tank , in the Ladies Hostel and Avoid Continuous operation of Pump .

Power Drawn by Pump	5 kW
Energy Savings with Over Head Tank	50 kWh/Day
Annual Energy Savings	15000 kWh
Annual Monetary Savings	Rs.1,05,000

D.M.Ch

Investment	Rs.50,000
Pay Back Period	5 Months

7 Use One Pump with out VFD for Pumping Treated water to Garden

At Present 2x11kW Pump are Operated with VFD , for pumping treated water to the Garden , VFD is not Required for this Purpose , and hence it is suggested to operate with only One Pump at full speed .

Power Drawn by Both the Pumps	22 kW
Power Savings with One Pump operation	11 kW
Annual Energy Savings	30800 kWh
Annual Monetary Savings	Rs.2,15,600
Investment	Nil
Pay Back Period	Immediate

8 Switch OFF Lights & Fans in the STP Pump Room During Day Time

Though the Pump Room is adequately ventilated , Lights & Fans are kept ON During Day time , It is Suggested to keep them OFF During Day time

Power Drawn by 4x36W Tube Light & 2 Fans	0.3 kW
Annual Energy Savings	1050 kWh
Annual Monetary Savings	Rs.7,350
Investment	Nil
Pay Back Period	Immediate

D.M.Ch

9 Reduce Permitted Demand from 500kVA to 400 kVA

The Maximum Demand Reached for the College is unlikely to cross 350 kVA . The Permitted Demand now is 500 kVA , However the College has to pay for 90% of the permitted Demand or Actual Demand , whichever is higher	
Actual Demand	350 kVA
Billing Demand at Present	450kVA
Billing Demand after reducing Permitted Demand to 400 kVA	360kVA
Savings in Demand	90 kVA
Annual Monetary Savings	Rs.3,78,000
Investment	Nil
Pay Back Period	Immediate

10 Reducing the set temperatures of Air Conditioners

120 Air Conditioners of 2TR mostly in the main block , Currently the Temperature setting is at 18°C, The lower the setting the higher will be the energy consumption , hence it is suggested to maintain 24°C , in all the Air Conditioners in the Campus.	
No of 2TR Air Conditioners in Campus	120 Nos
Power Drawn by each Air Conditioners	2 kW
Total Power Drawn by AC's	240 kW
Power Savings with 24°C Setting	24%
Actual Power Savings	57.6 kW
Average Numbers of Hours of Operation	4 hours per Day
Annual Energy Savings	69,120 kWh
Annual Monetary Savings	Rs.4,83,840
Investment	Nil
Pay Back Period	Immediate

11 Optimize the use of energy in the Toilets

Following Measures are Suggested :	
▪ Remove Ceiling fans & use Exhaust fans	
▪ Reduce Numbers - Replace Tube Lights with LED's	
Power Savings by Removing Ceiling Fans	80 W
Power Savings by Reducing Number of Lamps , From 3 to 2	36 W
Power Savings for Changing to Led's for 2 Lamps	36 W
Total Power Savings in Toilet	152 W
Average Numbers of Hours of Operation	12 hours per Day
Number of Toilets	16 Ladies & 16 Gents
Annual Energy Savings	20,416 kWh
Annual Monetary Savings	Rs.1,42,900
Investment	Rs.20,000
Pay Back Period	2 Months

d.m.h

12 Install 100 kW Direct Grid Connected Solar PV

The College has vast area both Roof & Land , Initially it is Suggested , to Provide Rooftop Solar PV Systems . The Generated Power can be used Internally

Energy Generated through 100 kW Solar PV	400 kWh/Day
Annual Energy Savings	1,40,000 kWh
Annual Monetary Savings	Rs.9,80,000
Investment	Rs.60,00,000
Pay Back Period	60 Months

Recommendations/consolidation of audit findings

It is hoped that the college will have developed a greater appreciation and understanding of the impact of its actions on the environment. It has successfully been able to determine its impacts on the environment through the various auditing exercises. The green auditing exercise have brainstormed and implemented practical ways to reduce the negative impact on the environment. By Participating in this green auditing procedure it has gained knowledge about the need of sustainability of the college campus. It will create awareness around the use of the Earth's resources in home, college, local community and beyond.

Jeppiaar Institute of Technology should adopt an Environmentally Responsible Purchasing Policy, and work towards creating and implementing a strategy to reduce the environmental impact of its purchasing decisions.

Preparation of action plan

Policies referring to the College's management and approach towards the use of resources need to be considered. An environmental policy should be formulated by the management of the college. Where there are policies they need to be listed as part of analysis documentation. The college should have a policy on awareness raising or training programs (for ground staff or kitchen staff for example) and college also should have a procurement policy (the College's policy for purchasing

materials). Based on the policies college should have an action plan. The green auditing report will be a base line for the action plan to be evolved.

Follow up action and plans

Green Audits are exercises which generate considerable quantities of valuable management information. The time and effort and cost involved in this exercise is often considerable and in order to be able to justify this expenditure, it is important to ensure that the findings and recommendations of the audit are considered at the correct level within the organisation and that action plans and implementation programs result from the findings.

Audit follow up is part of the wider process of continuous improvement. Without follow-up, the audit becomes an isolated event which soon becomes forgotten in the pressures of organisational priorities and the passing of time.

Environmental Education

The following environmental education programmes may be implemented in the college before the next green auditing:-

Training programmes in solid waste management, liquid waste management, energy management , water management, vegetable cultivation, tree planting, landscape management, pollution monitoring methods, and water filtration methods.

- Display of environmental awareness board such as – Save water, No wastage of food/water, no smoking, plastic free campus etc.,
- Activate the environmental clubs
- Set up model rainwater harvesting system, vegetable garden, medicinal plant garden, etc.,

J.M.H

- Conduct exhibition of recyclable products

Conclusion and full list of recommendations

Green Audit is the most efficient & ecological way to solve many an environmental problem. The experiments on the nature by avoiding natural rules, this can be a one major reason behind Green audit process. Green Audit is one kind of professional care which is the responsibility of each individual who are the part of economical, financial, social, environmental factor. Green audits can "add value" to the management approaches being taken by the college and is a way of identifying, evaluating and managing environmental risks (known and unknown). The green audit reports assist in the process of attaining an eco friendly approach to the development of the college. There is scope for further improvement, particularly in relation to waste minimization and energy monitoring. The findings of this report show that the college performs fairly well on sustainability issues. The college does consider the environmental impacts of most of its actions and makes a concerted effort to act in an environmentally responsible manner. In conversations with faculty, staff, and administration at the college, a major theme has been the improvements made over the last several decades in how the college performs environmentally.

Even though the college does perform fairly well, the recommendations in this report highlight many ways in which the college can work to improve its actions and become a more sustainable institution. Some of the very important recommendations are 1. Adopt the proposed Environmentally Responsible Purchasing Policy, and work towards creating and implementing a strategy to reduce the environmental impact of its purchasing decisions. 2. Increase recycling education on campus. 3. Increase Awareness of Environmentally Sustainable Development- Use every opportunity to raise public, government, industry, foundation, and university awareness by openly addressing the urgent need to move toward an environmentally sustainable future. 4. Educate for Environmentally Responsible Citizenship- Establish programs to produce expertise in environmental management, sustainable economic development, population, and related fields to ensure that all university graduates are environmentally literate and have the awareness and understanding to be ecologically responsible citizens. 5. Practice

JEPPIAAR INSTITUTE OF TECHNOLOGY , SRIPERUMBUDUR - GREEN AUDITING

Institutional Ecology- Set an example of environmental responsibility by establishing institutional ecology policies and practices of resource conservation, recycling, waste reduction, and environmentally sound operations.

6. Involve All Stakeholders- Encourage involvement of government, foundations, and industry in supporting interdisciplinary research, education, policy formation, and information exchange in environmentally sustainable development. Expand work with community and nongovernmental organizations to assist in finding solutions to environmental problems.

7. Collaborate for Interdisciplinary Approaches- Convene university faculty and administrators with environmental practitioners to develop interdisciplinary approaches to curricula, research initiatives, operations, and outreach activities that support an environmentally sustainable future.

List of other recommendations

1. Installation biogas plant and compost units
2. Solar panels Could be Increased for energy savings
3. Set up vegetable and medicinal plant gardens
4. Install two more rain water harvesting system
8. Arrange more training programmes on environmental management system and nature conservation
9. Declare the campus plastic free and arrange awareness programmes to make the campus plastic free
10. Adopt an environment policy for the college
11. Establish an e-waste collection centre
12. Participation of students and teachers in local environmental issues
13. Rennovation of cooking system in the canteen to save gas
14. Establish a purchase policy for environmental friendly materials
15. Replace incandescent and CFL lamps with LED lights
16. Conduct seminars and workshops on environmental education
17. Establish water, waste and energy management systems
18. Avoid plastic plates and plastic items in the college functions
19. Set up a nursery for plants to be distributed to the students
20. Introduce UGC environmental science course to all students

Beyond the Campus Environmental Promotion Activities

1. 6th NSS Annual Special Camp on "YOUTH FOR CLEAN INDIA" 09.03.2020

Jeppiaar Institute of Technology's NSS unit has organized an inaugural function of the 6th NSS annual special camp on "YOUTH FOR CLEAN INDIA" on 09.03.2020 at our college seminar hall. The camp was inaugurated by our Principal Dr. L.M. Merlin Livingston. The green flag waved to inaugurate the camp, and we indeed had a great and warm start to the inauguration.

The camp was conducted over 6 days from 09.03.2020 to 16.03.2020 at Panchayat middle school, Echoor village. During the camp, our NSS volunteers performed many activities such as an event for school kids, school campus and temple cleaning, wall painting, coronavirus awareness program, and tree plantation. At the end of the day the valedictory function conducted and prizes were distributed to the school kids who won the competitions. The camp was a pleasant experience for the attendees and a great learning as well.

2. SWACHH PAKHWADA - 11.12.2019 Open Defecation Free (ODF) Awareness Rally

Jeppiaar Institute of Technology, 1(TN) CTC NCC, Chennai organized the “Open Defecation Free (ODF) Awareness Rally” to commemorate “SWACHH PAKHWADA – DEC 2019 “on 11.12.2019 (Wednesday). The rally started from College premises to Kunnam Village with Thirty Three Senior Division Cadets and accompanied by Lt.M.Karthikraj, Associate NCC Officer. As part of this program, cadets explained about the effects of open defecation to the public and displayed the signboards mentioning the quotes regarding the open defecation. Cadet also interacted with the public to create awareness by saying the quotes and steps need to be taken by an individual and society. Dr.L.M.Merlin Livingston, Principal, Jeppiaar Institute of Technology presided over the programme.

3. MEGA POLLUTION AWARENESS PAKHWAD – 10.07.2019

Jeppiaar Institute of Technology, 1(TN) CTC NCC, Chennai organized the “Pollution Awareness Rally” to commemorate “MEGA POLLUTION AWARENESS PAKHWAD – 2019 ” on 10.07.2019. The rally started from College premises to Sunguvarchatram Bazaar via Kunnam Village with Thirty One Senior Division Cadets and accompanied by Lt.M.Karthikraj, Associate NCC Officer. As part of this rally cadets distributed the pamphlets to the public, displayed the sign boards mentioning the quotes regarding the pollution awareness.

Cadet also interacted with the public to create awareness by saying the quotes and steps need to be taken by an individual and society followed by the cadets along with ANO taken the oath for pollution awareness. Dr.L.M.Merlin Livingston, Principal, Jeppiaar Institute of Technology presided over the programme

4. INSTAGRAM PHOTO CONTEST - 28.06.2019 to 08.07.2019

Theme: Water Scarcity

This Instagram contest (<https://www.instagram.com/jeppiarit/>) is open to all Students, Staff and Alumni of JIT. Only the posts made between 2019, June 28th 6 pm and 2019, July 8th 6 pm is considered eligible for this contest. On 2019, July 9th 11 am, the post with the maximum number likes was declared as the winner.
