The Chairman extended a warm welcome to all the members in the meeting and introduced all the members of BoS at the beginning of the proceedings of Board of Studies (Bos).

Dr. Suresh presented vote of thanks to end up the meeting.

Agenda of the meeting and resolutions are as follows:

Agenda Item No.1: To discuss and approve revised first year structure

The Chairperson presented the proposed curriculum structure of First year B.E./B.Tech.

Agenda Item No.2: To discuss and approve revised curriculum contents of branch specific First year courses.

Dr.S. Suresh presented the curriculum of all branches specific courses.

A. Course: Introduction to Data Science

The course "Introduction to Data Science" and other courses with similar introductory titles should be renamed to "Basics" or "Fundamentals" to reflect the foundational nature of the content more accurately.

B. Updated Reference Materials:

It was recommended that prescribed textbooks and reference materials be published within the last four years to ensure that the terminologies and definitions remain current and relevant.

C. Course: Design Thinking and Engineering-Syllabus Revision

The syllabus for "Design Thinking and Engineering" needs to be rephrased to enhance clarity and comprehensiveness.

D. Course Revision Timeline:

In the next curriculum revision scheduled for six months from now, the course "Basics of Computing" should be streamlined and updated to include relevant programming languages.

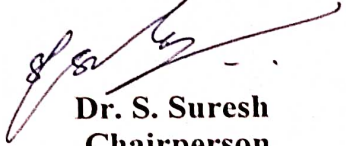

E. Practical and Theory Hours Adjustment:

For the course "Engineering Graphics," it was suggested to allocate three hours for practical sessions and one hour for theoretical instruction to balance hands-on learning with conceptual understanding.

These changes aim to modernize the curriculum, ensuring it remains relevant and effective in equipping students with the necessary skills and knowledge.

Resolution:

After undergoing the changes, revised First year B.E./B.Tech. curriculum will be sent to BoS for approval.
